## FOR RELEASE APRIL 2017:

Westgate Management is pleased to announce DRIFT MOUTH as the newest addition to our roster of quality Artists. This Spring, they will be releasing their fantastic EP *Franklin County Nights* on Dead Canary Records and touring regionally/nationally over the Spring and Summer 2017.

Lou Poster is the son of a 3rd generation West Virginia coal miner, and emigrated to Ohio in the mid-nineties. After fronting the ear-crushing cowpunk Grafton for nearly 2 decades, he's decided to explore the more melodic side of his country roots, and the result combines murder ballads that sit neatly beside tales of lost love and disconnection, all from a truly unique perspective.
